

Step #1 Stamp Image

Step #2 Choose a point on the stamped image and make a nail point. Continge around the stamped image. Decide point "A" & "B", connect the points and continue around the image

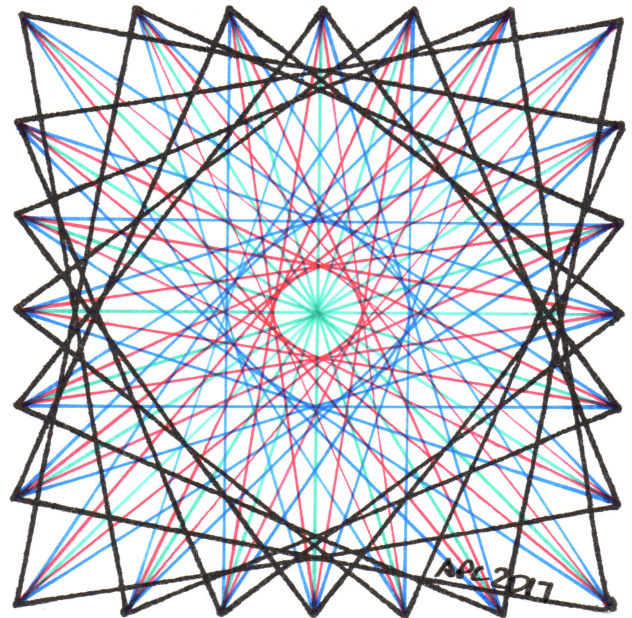

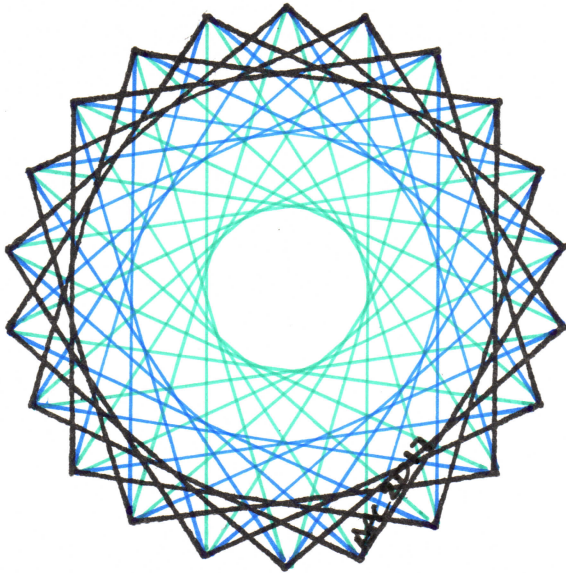

Step #3 Choosing a different point on the image, repeat step #2. This point can be on the stamped image or someplace that you have added.

Step #4 Continue adding nail points and complete your design. In this example: Nail points have been added to the perimeter of the card base.
